

New TDT Network Route 360

Route 360 is a new line that connects LMC and Antioch High School via Gentrytown Dr, James Donlon Blvd, and Contra Loma Blvd. **Route 360 replaces current Route 380 service** on this segment.

Route 360 will operate only on weekdays when school is in session. There will be one morning trip from LMC to Antioch High School and one afternoon trip from Antioch High School to LMC – and these trips will be timed to bell schedules.

The Antioch Tri MyRide zone will be extended to provide daily service to this area.

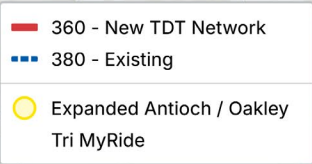

These changes provide more convenient and direct access for Antioch High School students, while ensuring flexible all-day service through Tri MyRide.
