

## Route 201X Recommendations

Route 201X is a peak-only route that operates from the Concord BART Station in Concord to the Pittsburg/Bay Point BART station via Highway 4 and Evora Rd. The primary market is for Mt. Diablo High School Students. Route 201X duplicates BART for longer regional trips and the current Route 389 (*which will be rebranded as Route 374*) between Bay Point and the Pittsburg/Bay Point BART station. Ridership during non-school bell trips is low.

**Slight changes to the alignment** of Route 201X are recommended to remove the route deviation on Kevin Dr. The 201X **schedule should be reduced** to coincide with Mt. Diablo High bell schedules and operate two trips in the morning and two trips in the afternoon.

### Route 201X Service Recommendations
