

Route 384

Route 384 currently connects Antioch BART, Lone Tree Way, and Brentwood. Ridership is low, particularly east of Slatten Ranch Shopping Center.

Due to low ridership, and duplication of service with other routes, **Route 384 should be consolidated with other routes**. Almost all existing Route 384 riders would continue to have access to service.

- Deer Valley Rd between Hillcrest Ave and Lonetree Way would continue to be served by Tri MyRide service.
- A new Route 375 would provide service on Lonetree Way between Deer Valley Rd and Empire Ave, with more frequent weekday 30-minute service.
- East of Empire Ave, a new Brentwood Tri MyRide zone and Route 373 (formerly Route 391) would cover most current Route 384 stops.
